

Year 4 Spring Term Overview

READING

During daily reading lessons, the children will practise a range of reading skills, including: retrieval (finding information), inference (using clues to deduce information), summary, and analysis of vocabulary. They will also make predictions, identify features of different texts and make comparisons between books.

In the Spring term, children will be reading **Special Occasion Clothes** by Jane Bingham and **The Explorer** by Katherine Rundell.

WRITING

In Spring 1, our writing is linked to our geography work on the **rainforest**; we look at how pollution is affecting our world and write a newspaper article about animals that suffer and die from plastic in our oceans.

In Spring 2, our writing will be linked to our reading book, **The Explorer**. We will also make connections with our unit on the **Anglo-Saxons** and why people have constantly moved around and explored our planet throughout history.

MATHS

In the Spring term, we will cover the following topics:

Multiplication & Division	Length & Perimeter
Fractions	Decimals

Reasoning and problem-solving skills will be developed throughout every unit of learning.

See the webpage linked below for the full Year 4 overview of our Maths curriculum.

HISTORY

British history 3:
How hard was it to invade and settle in Britain?

RELIGIOUS EDUCATION

How do Hindus worship?

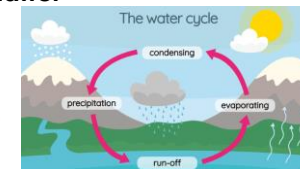

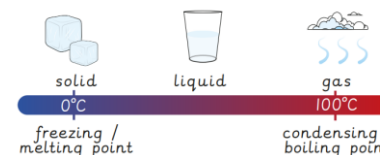

Communion and the Last Supper

SCIENCE

States of Matter

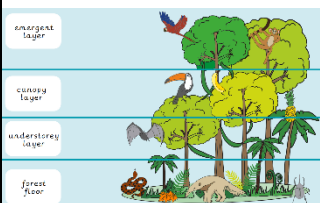

Sound & Vibrations

GEOGRAPHY

Why are rainforests important to us?

ART & DESIGN

Pencil work & Print-making

D&T

Mindful moments timers

MUSIC

Ukuleles & Body Percussion

PSHE

Family & Relationships

COMPUTING

Digital Collaboration & Coding
